

S. P. Mandali's
Ramnarain Ruia Autonomous College
(Affiliated to University of Mumbai)

Syllabus for
Program: F.Y.B.A.

Program Code: RUASTA

(As per the guidelines of National Education Policy 2020-
Academic year 2023-24)

(Choice based Credit System)

Course Code- Skill Enhancement Course : RUASECSTA.O101

Course Title: Data Condensation and Visualisation Techniques
Academic year 2023-24

COURSE OUTCOMES:

| COURSE OUTCOME | DESCRIPTION A student completing this course will be able to: |
|----------------|--|
| CO 1 | Distinguish between different types of scales. Compare the different types of data and describe the various methods of data collection. |
| CO 2 | Compute Yule's coefficient of association Q and Yule's coefficient of Colligation Y and associate two attributes, and relate Q and Y. |
| CO 3 | Construct Univariate and Bivariate frequency distribution of discrete, continuous variables and Cumulative frequency distribution. Draw Graphs and Diagrams: Histogram, Polygon/curve, Ogives. Heat Map, Tree map. |

DETAILED SYLLABUS

| Course Code | Unit | Course/ Unit Title | No. of Hours |
|----------------|--------|---|--------------|
| RUASECSTA.O101 | Unit I | Types of Data and Data Condensation: <ul style="list-style-type: none"> • Concept of Population and Sample. Finite, Infinite Population, Notion of SRS, SRSWOR and SRSWR • Different types of scales: Nominal, Ordinal, Interval and Ratio. • Methods of Data Collection: i) Primary data: concept of a Questionnaire and a Schedule, ii) Secondary Data • Types of data: Qualitative and Quantitative Data; Time Series Data and Cross Section Data, Discrete and Continuous Data • Univariate frequency distribution of discrete and continuous variables. Cumulative frequency distribution, Tabulation • Data Visualization: Graphs and Diagrams: Histogram, Polygon/curve, Ogives. Heat Map, Tree map. • Bivariate Frequency Distribution of discrete and continuous variables | 15 Hours |

| | | | |
|--|--|--|--|
| | | ASSOCIATION <ul style="list-style-type: none"> Dichotomous classification- for two and three attributes, Verification for consistency Association of attributes: Yule's coefficient of association Q. Yule's coefficient of Colligation Y, Relation between Q and Y | |
|--|--|--|--|

Work Load of Practical

| Course | PRACTICALS | Credits | Hours / Week |
|-----------------|-----------------------------------|---------|--------------|
| RUASECSTAP.O101 | Practical based on RUASECSTA.O101 | 1 | 2 |

Practical on SEC (1 Credit)

1. Univariate Frequency and Bivariate Frequency Classification and Tabulation
2. Frequency Curve and Frequency Polygon
3. Graphs:- Histogram
4. Graphs:- Cumulative Frequency distribution
5. Simple Bar Diagrams
6. Multiple Bar Diagrams
7. Subdivided Bar Diagrams
8. Pie Diagram
9. Association between attributes
10. Graphical representation using Excel
11. Revision 1
12. Revision 2

Course Code- Skill Enhancement Course: RUASECSTA.E111

Course Title: Introduction to R Programming

Academic year 2023-24

COURSE OUTCOMES:

| COURSE OUTCOME | DESCRIPTION |
|----------------|---|
| | A student completing this course will be able to: |
| CO 1 | Use the basic mathematical operators in R for different data types. Apply different data management techniques and data visualisation |

DETAILED SYLLABUS

| Course Code | Unit | Course/ Unit Title | No. of Hours |
|----------------|---------------|---|--------------|
| RUASECSTA.E111 | Unit I | Fundamentals of R: <ul style="list-style-type: none"> • Introduction to R, features of R, installation of R, Starting and ending R session, getting help in R, Value assigning to variables, • Basic Operations: +, -, *, ÷, ^, sqrt, Numerical functions: log 10, log, sort, max, unique, range, length, var, prod, sum, summary, dim, sort, five num etc. • Data Types: Vector, list, matrices, array and data frame, Variable Type: logical, numeric, integer, complex, character and factor Data • Processing: Data import and export, setting working directory, checking structure of Data: Str(), Class(), Changing type of variable (for eg. as. factor, as numeric) • Manipulations:- Selecting random N rows, removing, duplicate row(s), dropping a variable(s), Renaming variable(s), sub setting data, creating a new variable(s), appending of row(s) and column(s) • Data Visualization : Simple bar diagram, subdivided bar diagram, multiple bar diagram pie diagram, Box plot for one and more variables, histogram | 15 hours |

Work Load of Practical

| Course | PRACTICALS | Credits | Hours / Week |
|-----------------|-----------------------------------|---------|--------------|
| RUASECSTAP.E111 | Practical based on RUASECSTA.E111 | 1 | 2 |

Distribution of Practical on SEC (1 Credit)

1. Basic Operations in R
2. Data type list
3. Data type Matrix
4. Data type Data frame
5. Data Manipulations
6. Histogram
7. Frequency distribution
8. Simple Bar Diagrams
9. Multiple Bar Diagrams
10. Sub-divided Bar Diagrams)
11. Box Plot
12. Pie Diagram

2. Statistics using R by Sudha G purohit, Sharad D Gore, Shailaja R Deshmukh, Narosa Publishing House Delhi

Modality of Assessment: Skill Enhancement Course

(1 Credit Theory Course)

A) Internal Assessment- 10 Marks

| Sr. No | Evaluation type | Marks |
|--------|---|-----------|
| 1 | Class Test/ Project / Assignment / Open book test | 10 |
| | TOTAL | 10 |

B) External Examination (Semester End)- 15 Marks**Semester End Theory Examination:**

1. Duration – The duration for these examinations shall be of **30 min**.
2. Theory question paper pattern:

Paper Pattern:

| Question | Options | Marks | Questions Based on |
|----------|--------------|-----------|--------------------|
| 1 | 3 out of 5 | 15 | Unit I |
| | TOTAL | 15 | |

C) Practical Examination Pattern:

Practical Examination Total Marks **50 Marks.**

(i) Journal and attendance **5 Marks**

(ii) At the end of the semester, examination of **2 hours** duration and **45 marks** shall be held for the **course**.

1. Practical paper will consist of **FIVE questions**.

2. Learners to attempt **THREE questions**.

PRACTICAL JOURNAL

The students are required to present a duly certified journal for appearing at the practical examination, failing which they will **not be allowed to appear for the examination**. The journals will be certified if the student attends **75% practical**.

In case of loss of Journal and/or Report, a Lost Certificate should be obtained from Head/ Co-ordinator / In charge of the department; failing which the student will not be allowed to appear for the practical examination.
