## **Note to Students on COVID-19 & Exams**

March 26, 2020

I hope all of you and your families are well. The present Corona virus outbreak is an unprecedented event in our lifetime. Seeing the daily increase in the number of cases in our state, our country and globally, I am sure you would appreciate the necessity of the lock down imposed by the government and the need to abide by it. Due to the lockdown and resulting rescheduling of the exams, I can understand that you must be under stress regarding your examinations, results and further admissions. Since the situation is so dynamic, we are not in a position to give you definite answers. After my last communication, the Government has extended the lockdown till midnight on 14th April. Further, I am sure that the Government will take a call depending on the situation then. Till then I request you to remain calm. As soon as we have more clarity on the lockdown situation, we will upload the new examination schedule on the website. You will be given enough notice before resuming the examinations, so there is no need to panic. Sufficient time will be given for you to return to Mumbai if you have gone to your native place during this

period. Keep checking our website regularly for updates. Also, I request you to install the Ruia Student Diary App using this link:

[https://play.google.com/store/apps/details?id=com.iitms.ruia\\_mumbai](https://play.google.com/store/apps/details?id=com.iitms.ruia_mumbai)

It's easier for us to send our messages directly to you through this app.

Till then, I advise you to use your time constructively. You may continue to study for your remaining examinations or you may use your time to learn something new related to your subject or any other area that interests you. There are a lot of free e- resources available which can be made use of for this purpose. You may contact your teachers for guidance in this matter or refer to our website for suggestions.

Please continue following the guidelines given by the government. I cannot stress the importance of Social Distancing enough.

Also, I urge you to spend quality time with your family and render help wherever needed.

Be safe, Be healthy.

Regards,

*A Lokur*
